

Instructions for exhibitors - CHEM Career Forum 2019

Mon 16th of December, 12:00am - 15:30pm (5:30pm - 4:30pm Job Hunting Clinic)
Dipoli, Otakaari 24, Espoo

Stands

The stands are located on the second floor foyer and Sief Hall. The space is accessible from 10:00am, which is also when you can begin to set up the stands. Juhlaovi (on the side of Luolamiehentie) is the nearest entrance. The lift is behind the Käpyaula information counter. Clearing out the stands begins at 3.30pm, and the space should be empty by 5:00pm.

Participants can visit the stands between 1:15pm – 3:30pm. We have encouraged the students to bring with them a Curriculum Vitae.

A round, vertical table serves as a stand - should you require an extra table, please contact us. Near the stands, electricity is provided with extension cords. If this is the first time your company is taking part in the event, or if you did not attach a company logo to the registration from, please send a logo via email to susanna.ritala@aalto.fi. We still have the logos from last year. You will find your spot based on the logos we have attached to the tables.

Parking

Aalto University parking permits are available from the info counter. Parking spaces can be found in front of the Dipoli building and at Otahalli (number 28 on the [Otaniemi campus map](#)) when driving past Dipoli on Luolamiehentie.

Breakrooms and storage

Unfortunately, Dipoli does not offer a supervised cloakroom for the exhibitors. Coded lockers can be found in Käpyaula, and coffee is served in the upper foyer from 12:00pm.

Lunch

The Aalto University School of Chemical Engineering invites the exhibitors for lunch before the beginning of the event. Representatives of the school will host, and you will receive an invitation for the lunch later.

Student posters

During the event, first-year students of the Aalto University School of Chemical Engineering present self-made posters. These are found in the same space as the exhibitor stands, and we hope you find the time to view the posters and discuss them with the students.
