

Teaching and Learning Evaluation Exercise (TEE) 2020

Degree Programme Vision

Please write a vision for your programme. The recommended length of the vision is one A4 page (max 5000 characters). You have two questions to support you in writing the vision.

1. What are the main lessons learned of the programme's self-evaluation?
2. What is the programme's foresight of the content development and the development of teaching and learning methods?

Please return the vision in the webropol-system by the end of September 2020 at the latest.
