

The living room has two bigger screens on both sides of the stage
If you wish, you can show different content on each screen (e.g. presentation + event visuals).
Note that you will not be able to show two different presentations and control them with the same clicker.
Both screens consist of 9 separate smaller screens and the lines between them are visible.
The lines can be disturbing if they cut off the letters, so try to avoid that area if possible.
We can adjust the positioning of certain elements at the rehearsals.
