

Students in the School of Chemical Engineering, the School of Electrical Engineering, the School of Engineering, and the School of Science applied for exchange for AY 2025-26 to following destinations

- Application rounds November 2024 (destinations in Japan) and January 2025 (all other destinations)

Notes about the statistics:

- The lowest academic index selected does not tell whether there were places left over in the destination
- The lowest academic index selected does not tell how high the index was for the more popular semester if places are divided between the semesters. The difference between autumn and spring terms is only published in the destinations in Singapore.
- If there is a line on the lowest index selected, no students were selected (either no applicants or no available places)

Total applications	459	
Selected to 1st choice destination	324	71 %
Selected to 2nd choice destination	67	15 %
Selected to 3rd choice destination	36	8 %
Wild card	3	1 %
Selected total:	430	94 %
