

# How to add or remove SDG keywords from your profile and publications

UN Sustainable Development Goals keywords are automatically populated in ACRIS. They will be visible on your Research Portal profile page (<https://research.aalto.fi/>) as well as on individual publication pages and project pages.

The image shows two screenshots from the Research Portal. The left screenshot is a user profile for Bruce Banner, a Professor in the Department of Pure and Applied Chemistry. It highlights the 'Personal profile' section and the 'Expertise related to UN SDGs' section, which lists SDGs 11, 12, and 13. The right screenshot is a publication page titled 'A framework to explore micronutrient deficiency in maternal and child health in Malawi, Southern Africa'. It shows the abstract and a callout box indicating that the publication contributes to UN SDGs 11, 12, and 13.

Personal users will be able to remove SDG tags they feel are not relevant or add tags they believe better reflect their research topics.

## How to do it:

### Profiles

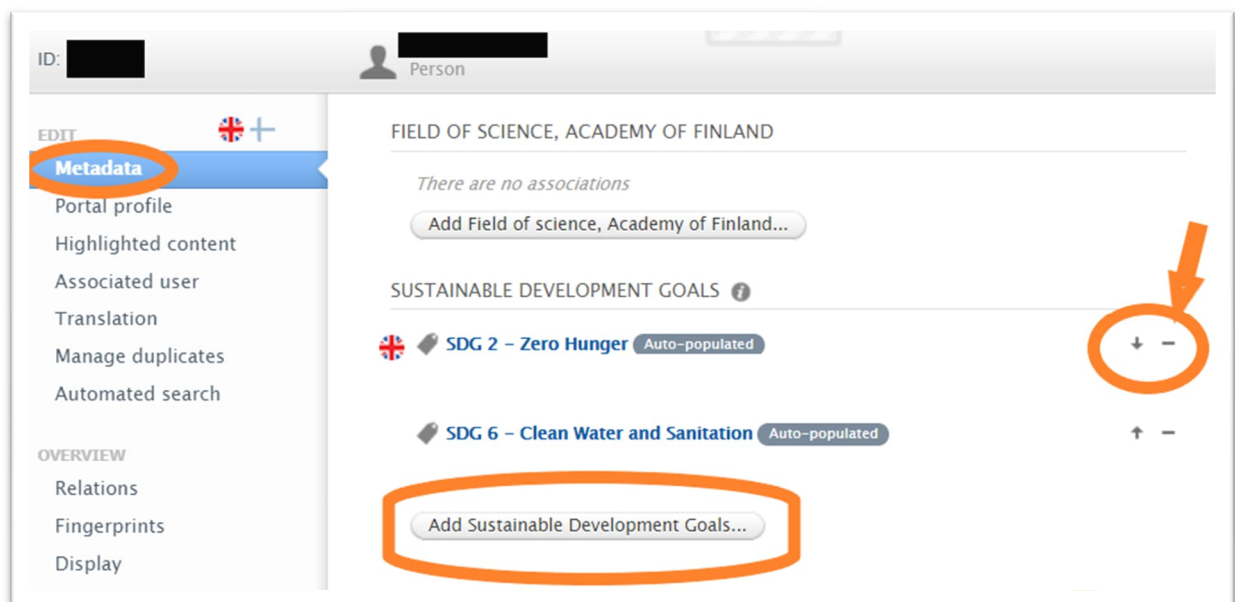

1. Go to <https://acris.aalto.fi/> . Log in with your Aalto identifiers if you are accessing from outside campus or without a VPN connection.
2. Select the **Edit profile** button on your Personal Overview screen.

**Note:** When updating fields, the **Create** button will apply your changes, but you must press the blue **Save** button to retain them. The **Save** button is always located at the bottom of the record window.

3. Click **Metadata** in the pop-up window and scroll down to **Keywords**. To remove a keyword, click the hyphen character. To add a keyword, click the **Add Sustainable Development Goals** button.

## Research outputs

1. Go to <https://acris.aalto.fi/>. Log in with your Aalto identifiers if you are accessing from outside campus or without a VPN connection.
2. Access your publications on your Personal Overview page.
