

Photographer Guidelines at the Event

To ensure a smooth event and unobstructed visibility for all guests, we kindly ask members of the media to follow these rules when photographing:

Positioning in relation to the stage

- Photography from the **sides of the stage is not allowed**.
- If side shots are absolutely necessary, please remain at least **2 meters away from the stage**, preferably partly behind the wooden set structures.
- Do not move beyond the **first row of the audience**.

Front-of-stage photography

- Photographers and cameras must not rise **higher than the seated guests**. This also applies to tripods and monopods.

Robotic cameras (panapods)

- Robotic cameras on panapods are in use at the venue.
- **Do not position yourself directly in front of these cameras.**
- **Do not raise your own cameras** directly in front of the panapods to avoid blocking their view.

Thank you for your cooperation in helping us keep the event running smoothly!
