Learning a new language is beneficial

- Language learning has many benefits:
 - it develops thinking skills,
 - enhances problem-solving skills,
 - increases creativity,
 - expands cultural perspectives,
 - and helps to understand the local culture, which in turn can make integration and social inclusion easier.
- + It's a lot of fun. ☺

Why learn Finnish?

- Language is key to accessing information, understanding the local culture and being able to fully enjoy life in the country.
- Understanding of the local language promotes
 - a sense of belonging in the communities around you
 - and reduces feelings of being an outsider.
- Even basic knowledge of the local language makes it easier to navigate daily life and to build social connections.

Intercultural Communication

Develop your intercultural awareness and gain critical perspectives on culture, communication, and teamwork. Aalto's ICC courses combine theory and real-life reflection to help you communicate more effectively in diverse environments.

The **Intercultural Communication (ICC)** courses at Aalto help students develop fresh perspectives on culture, identity, and teamwork. Through interactive lectures and small-group discussions, the courses introduce foundational theories and concepts in ICC and encourage you to apply them to real-life situations.

By bridging academic theory with lived experience, the courses foster critical reflection on commonly held assumptions about culture and communication. Through lively discussions and collaborative activities with peers from different backgrounds, you will be encouraged to question your own assumptions and viewpoints and expand your intercultural insight.

All courses are in English
