

Guidelines for using staff campus bicycles

The Otaniemi campus has about 60 campus bicycles that make it easier for staff to get from place to place.

Below is a list of the locations from which it is possible to borrow a bicycle. The bicycles are identified as Aalto property and have individual serial numbers.

How does it work?

The keys to the bicycles and helmets can be borrowed from the caretaker of each building. A receipt will be issued for their use, so be ready to show your Aalto ID card.

The bicycle is intended only for short-term use. The bicycle and its accessories should be returned on the same day to the place from which they were borrowed, with all items returned to their exact designated places, and securely locked.

The bicycle has only one gear and the seat has a quick-release mechanism for easy adjustment, meaning that no tools are required. The bicycle is fitted with a dynamo-powered light. If necessary, the caretaker can loan out a bicycle pump and rain poncho.

Each bicycle user has a duty to notify the caretaker of any problems or needs for maintenance as it is the caretaker who will contact the service partner for any bicycle maintenance issues.

Delivery bicycles for carrying loads

Otaniemi also has two delivery bicycles, which can be borrowed for transporting loads or for events. They can be found at:

- Lämpömiehenkuja 2
- Otakaari 1
