

# Towards a better world

Aalto University

**Aalto University is  
a multidisciplinary  
community of bold  
thinkers where  
science and art  
meet technology  
and business.**

Around

12 000

full-time equivalent degree students

90 000

alumni

In 2018, our students  
graduated with

263

doctoral,

1 628

master's,

1 218

bachelor's degrees, and

290

graduated from the MBA  
or EMBA programmes

---

**School of Arts, Design and Architecture:**  
Architecture; Art; Design; Film, Television  
and Scenography; Media

---

**School of Business:** Accounting;  
Economics; Finance; Information and  
Service Management; Management  
Studies; Marketing

---

**School of Electrical Engineering:**  
Communications and Networking;  
Electrical Engineering and Automation;  
Electronics and Nanoengineering; Signal  
Processing and Acoustics

The Kokoon house, a project by Department of Architecture's Wood Program, stems from an idea of providing easy to build and affordable temporary housing.

# 4000

personnel

around

# 400

of whom are professors

---

**School of Engineering:** Built Environment;  
Civil Engineering; Mechanical Engineering

---

**School of Chemical Engineering:**  
Bioproducts and Biosystems; Chemical  
and Metallurgical Engineering; Chemistry  
and Materials Science

---

**School of Science:** Applied Physics;  
Computer Science; Industrial Engineering  
and Management; Mathematics and  
Systems Analysis; Neuroscience and  
Biomedical Engineering

**We educate game changers to solve grand challenges and create wellbeing in society. This requires disciplinary excellence combining creativity, collaboration and entrepreneurship. We also offer open university instruction as well as leadership development services.**

“I’m really into problem solving and ambitious about finding my own way. Nothing feels better than the little spark that lights up when you’ve figured something out. That’s what studying at Aalto means to me: a platform to challenge myself everyday.”

Linda Loukamo, Student of Computer Science

Around

12 500

applicants seek admission to  
Aalto University every spring  
and approximately

15%

are admitted

Around

35%

of the accepted  
applicants are female

**“As Aalto University aims to educate our future thought-leaders, it isn’t just the students that are learning, the entire community learns and develops in the process.”**

**Anna Valtonen,  
Vice President of Art & Creative Practices**

Around

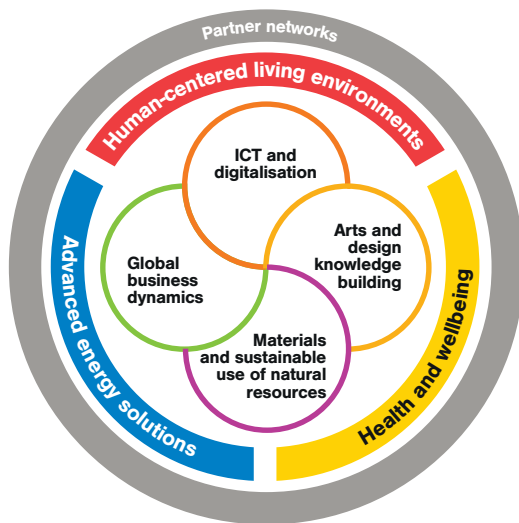

90%

of our professors act in  
the seven key areas of  
our research endeavours

**We are committed to identifying and solving grand societal challenges and building an innovative future through our **seven** key research areas.**

**“The bioeconomy is one of Finland’s most important export fields and employers. Moving from an oil-based economy to an increasingly bio-based economy is a great opportunity for us.”**

**Janne Laine,  
Vice President of Innovation**

# Our infrastructures for research and teaching also serve external research groups and companies.

## **Bioeconomy infrastructure**

**Aalto Ice Tank** – Arctic expertise

**OtaNano** – Materials and sustainable use of natural resources

**Science-IT** – Computational research

**Metsähovi Radio Observatory** – Radio astronomy and space research

**Aalto Neuroimaging** – Health technology

**Aalto Studios** – Media centre

“Open science enhances the use of scientific information in society and in the creation of innovation. Openly available research data also increases the reliability of research.”

**Ossi Naukkarinen,**  
**Vice President of Research**

The background image shows a large industrial facility, possibly a water treatment plant. A worker in a yellow safety jacket is standing on a small platform or walkway, holding a long pole. Below the platform is a large body of water. A yellow boat is moving across the water, leaving a white wake. The background features large white panels and industrial equipment on the right side.

In 2018, our international  
publications were cited

52%

more frequently than  
publications in the same  
fields on average

**Pioneering in art, design  
and architecture we are an  
internationally visible and  
esteemed player in the field.  
The aim of our multidisciplinary  
activities is to find human-  
centred solutions to socially  
important issues.**

A hundred-metre mural painted  
by visual communications design  
students guided visitors at the  
Flow Festival in Helsinki.

---

We rank  
**7<sup>th</sup>**

in the world in art and design  
(QS World University Ranking 2019)

**The main campus in  
Otaniemi, Espoo, supports  
our vision for building  
an innovative society.  
Our vibrant collaboration  
hub attracts students,  
faculty, staff and partners  
worldwide.**

**We offer entrepreneurship education to all of our students. Our diverse ecosystem consists of both student-led and university-run entrepreneurial activities – including startup event Slush which became world-renowned in the hands of Aalto students, attracting over 20 000 global participants annually.**

”[Slush] has done more to promote the image of Finland than any government project ever could.”

**Risto Siilasmaa, Founder and Chair of F-Secure,  
Chair of Nokia, Alumnus of Aalto**

Close to

100

companies are founded  
every year in our ecosystem

**“The university’s role as a builder of the future and as a problem-solver in grand societal challenges depends on our cooperating creatively with a variety of partners, both at home and abroad.”**

**Ilkka Niemelä, President**
