

MASTER'S THESIS

- Polymer Technology group is looking for a master's thesis student to study:
- **Synthesis and Modification of Polysaccharide-based Biopolymers/Composites and Characterization**
-
- If you are interested please contact:
- **Dr. Sedigheh Borandeh**, email firstname.lastname@aalto.fi
- Send your CV no later than 31.07.2020
-
- The position will contain literature and patent search, laboratory tests including synthesis and modification of polysaccharides and analyses of the final materials with different techniques.
- Conditions: Aalto's student, not yet graduated from Masters. Backgrounds in polymer synthesis and characterization, organic chemistry, chemical engineering and materials.
- Starting date: September 2020
- Duration: 6 months
