

# Research Publications API

This API makes publication data from Acris publicly available to any website. API transfers research information as it is available on Acris: publications which visibility is set to 'public' and status is "validated" will be transferred.

See full Acris API at <https://acris.aalto.fi/ws/api/515/api-docs/index.html>

The API is available to anyone inside and outside Aalto University – all that is needed is registration.

## Endpoints Available:

**/research-outputs** : Lists all research outputs

**/research-outputs/{id}** : Get research output with specific ID. Retrieve ID (pureID) from above API.  
Uses

**/research-outputs/{id}/fingerprints** : Lists all impacts associated to the research-output specified by an ID (pureID)

## Instructions : Getting Started

1. API.aalto.fi
2. Register – Sign UP

**Register** Register to the developer portal to use the Aalto API ([Sign up](#))

**Get your API key** Use your API key to authenticate and report the calls you make

**Create your app** Start coding and create awesome applications with the Aalto API

- 3.
4. Organization should be you company or team.

**SIGN UP**

ORGANIZATION/GROUP NAME

USERNAME

EMAIL

PASSWORD

PASSWORD CONFIRMATION

Strong passwords required: Password must be at least 8 characters long, and contain both upper and lowercase letters, a digit and one special character of `-+=><_$.:;!@&()*~][{}|`.

By signing up you agree to the following [Legal Terms and Conditions](#) ([show](#))

## Thank you

We have sent you an email to confirm your email address. Please click the link in the email and you can directly login!

(If you don't see the email, please check your spam box as well.)

- 6.
7. If you still cannot find the mail, please get in touch with [it-integ@aalto.fi](mailto:it-integ@aalto.fi)
8. Login with the link in the email.
9. Click "Services"
10. Click "Subscribe to Research API"
11. Click on "Applications" -> "Create new application"
12. Click "Research API"
13. Give a name for your application which will use research publication data and select "Create Application"

The screenshot shows a form titled "Research Default Application Plan". It has three input fields: "NAME" with the value "My Research APP", "DESCRIPTION" with the value "My first Research APP", and a "Create Application" button.

|             |  |
|-------------|--|
| PLAN        | <b>Research Default Application Plan</b>           |
| NAME        | <input type="text" value="My Research APP"/>       |
| DESCRIPTION | <input type="text" value="My first Research APP"/> |

[Create Application](#)

- 14.
15. Now on Applications tab you can see your new application's key

### How to use the API :

Check the documentation :

- Store the API Key previously generated above
- Documentation Tab -> Research Publications API
- "Authorize" -> Enter your new API Key
