Tips for team learning session: D&I discussion in team meeting

1. Discuss what diversity and inclusion mean in your team. Make sure everyone participates.

2. Work together / in pairs to generate a Flinga board of ideas on how you could be mindful of diversity and inclusion in the core tasks, services and processes your team is engaged with.

3. Summarise after the session and discuss the summary within your team. Agree on action points and follow-up.
