Policy summary

The endowment is committed to responsible investing and managed in a sustainable way.

The endowment invests via funds meaning the security selection is outsourced. We use both passive index funds and active investment strategies.

From our passive investments we exclude UN Global Compact violators, controversial weapons, thermal coal and oil sands production.

Active managers are required to engage with companies and integrate sustainability analysis to investment decisions.

We aim to benefit from the transition towards a more sustainable society and prefer investments with a positive sustainability profile.

We target a carbon neutral portfolio in the long run while significantly reducing the carbon intensity of the portfolio in the medium term.
Of our external managers...

- **95%** have signed the Principles of Responsible Investment (PRI).
- **98%** have a dedicated Environmental, Social & Governance (ESG) Policy.
- **9%** explicitly target a positive ESG profile.
- **55%** use negative Screening or have an Exclusions policy.
- **87%** have an Active Engagement Policy.
- **34%** are classified as Article 8 or 9 according to the EU Sustainable Finance Disclosure Regulation (SFDR).

Data collected by surveying all external managers. Figures weighted by invested capital.
