

# Welcome to study Sound in New Media at Aalto University

Dear New Student,

on behalf of Media Lab staff and faculty I warmly welcome you to study Sound in New Media with us in the MA in Art & Media Master's Programme at Aalto University School of Arts, Design and Architecture.

We are very excited to start our next academic year with an excellent group of new students. We offer you a comprehensive, up-to-date programme within a high-quality learning environment which gives you a valuable competitive edge in the employment market, both in Finland and around the globe.

The official academic year begins with the School's general 'ARTS orientation' on Monday 29<sup>th</sup> August. During the orientation days you will learn about the practicalities of student life and about the variety of study and leisure related activities and opportunities in Aalto University. You will also meet your new fellow students from other Majors of the MA programme as well as our staff who will guide you with planning your studies.

Please note that the teaching in Sound in New Media in Media Lab will begin with an intensive one-week workshop already on Monday 22<sup>nd</sup> August, i.e. before the official start of the academic year.

Please remember to check your e-mail from time to time also during the Summer months: you will receive more detailed information about starting your studies and the ARTS orientation days.

We also recommend you to check <https://into.aalto.fi/display/enmlab/Starting+your+studies> plus our website <https://www.aalto.fi/aalto-media-lab> and, if applicable, our [Facebook group](#) .

Looking forward to meeting you on Monday 22<sup>nd</sup> August,

Sincerely,

Lecturer Antti Ikonen,  
Head of Sound in New Media major
