

Digital Business Master Class

6 - 17 March 2023

Aalto University

Welcome to Digital Business Master Class!

Update your knowledge of digital business and technology while building your international competences and project management skills.

Digitalisation offers endless possibilities for doing our work better. From process automation to digital communication and customer experience management, digital business solutions offer ways to work more efficiently and reach results that would never be possible with traditional means.

Our mission at this Master Class is to give you the tools to understand the exponentially changing global business environment. The course is a combination of expert lectures and peer learning.

According to DBMC alumni, sharing experiences with a global cohort and applying knowledge in the business cases are their favourite parts of the course. Experience Aalto University, update your skill set and prepare for invigorating international encounters!

Looking forward to seeing you in March!

Digital Business Master Class

Digital Business Master Class is an interactive and fast-paced graduate level course (6 ECTS) focusing on digital technologies as tools for building businesses. During the Master Class, students learn how companies transform their processes and systems by implementing digital technologies. Concepts covered include platforms and ecosystems, business design thinking, data-driven marketing, data-intensive business, strategic management of technological innovation and artificial intelligence.

Challenge-based learning is an integral part of the Master Class. Students work on company projects in international and multidisciplinary teams. The projects are done in collaboration with partner companies, ensuring that the themes are relevant to the current business environment.

Student Testimonial

It may sound like a cliché, but the course has truly exceeded all my expectations. It was well-organised, and the communication between lecturer and students as well as among the students during our group projects was flawless. The general atmosphere during the lectures was easy-going and the main part of the focus lay on interaction, which helps you remember what you've learned."
