

# University Pathway Finland

Science & Technology

## SPRING 2023 WEBINAR SERIES

Friday, March 17

### A Career in technology in Finland. How to prepare for it.

What kind of business is there in Finland and in the Tampere region? What competencies do employers look for? How to build your networks during your studies?

With Senior Advisor Touko Apalahti and Head of Regional Operations Jukka Nieminen from Finnish Technology Industries.

Friday, March 31

### Admission to degree studies

How is the process like and what are the crucial deadlines? What are the students' must-dos? How are the places allocated, how about the scholarships? When do you get results? What happens after that?

With Pathway staff and Tampere University admission services

Friday, March 24

### Get to know the Bachelor Programme in Science and Engineering

What are the differences between the Natural Sciences and Mathematics and the Computational Engineering tracks? What are the study contents and how are they different? What are the choices in the Master's degree programme? What kind of career opportunities are there?

With Professor Esa Räsänen and Education and learning specialist Kaisu Kalliomäki from Tampere University

Wednesday, May 3

### Confirming your study place and enrolling for the university

How and when to confirm the study place? How to apply for visa and what are the requirements? Moving to Finland, where to get advice and tips?

With Pathway staff
