

# Regatta<sup>®</sup> Fleet management for gateways and control systems

# Fleet management

Scalable solutions for predictive maintenance and life-cycle management

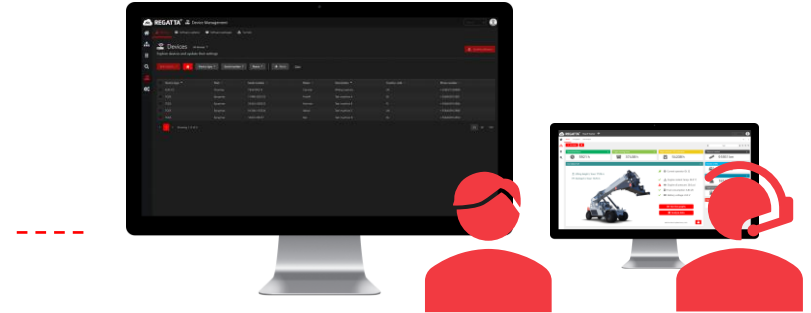

Machines with control systems

IoT Gateways

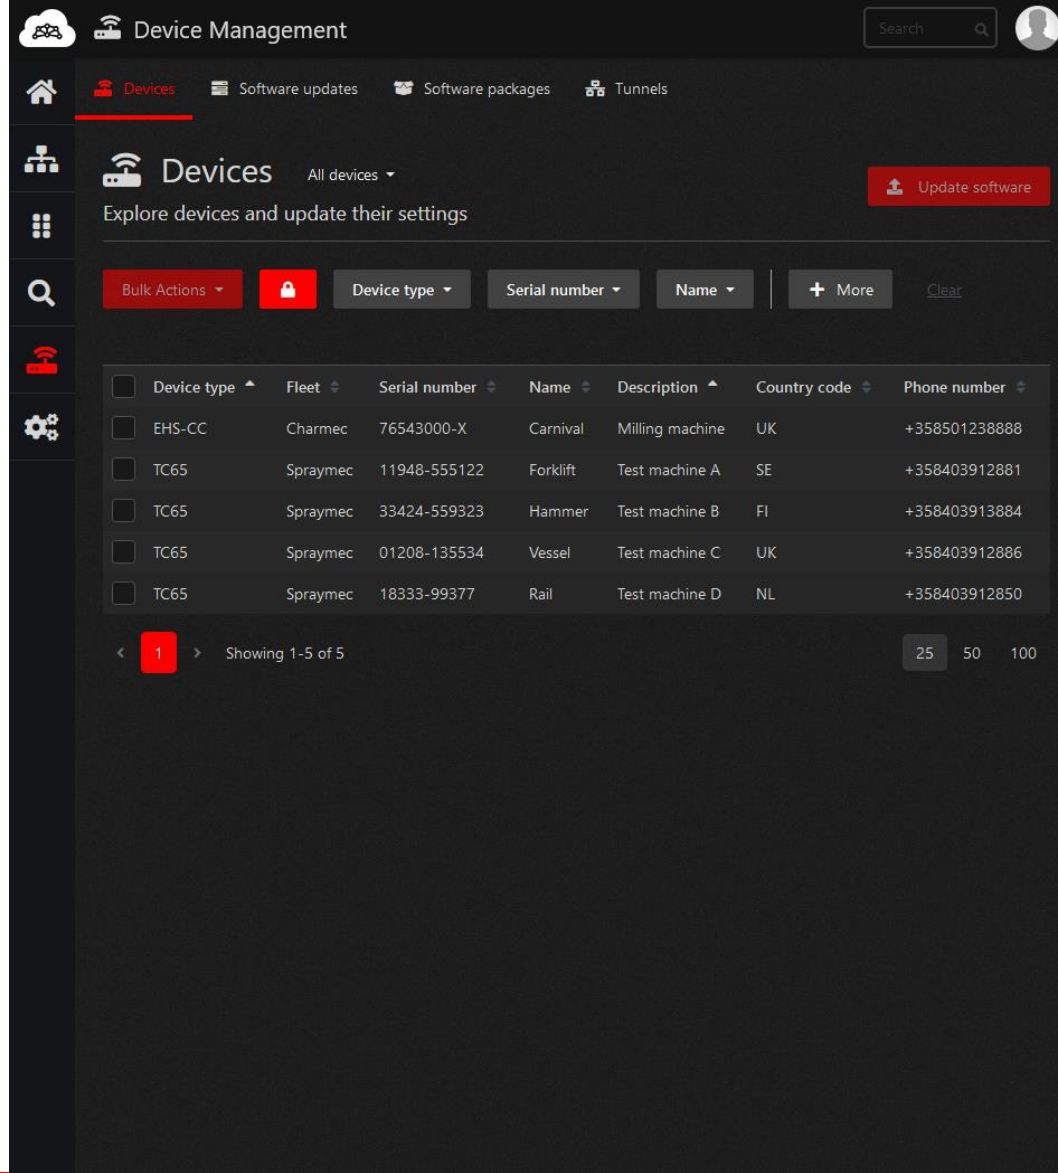

Cloud services

Regatta® products used by Maintenance and support personnel

# Key features

- Device registry
  - Server-side settings
  - Device-side settings
- Device state reporting and remote configuration
- Software package repository
- Over-the-air (OTA) mass updates with status monitoring and control
- Remote tunneling (e.g. SSH)
- APIs and integrations
- Web interface with RBAC

The screenshot displays the 'Device Management' web interface. The top navigation bar includes a search bar, a user profile icon, and a 'Device Management' title. Below the navigation bar, there are tabs for 'Devices', 'Software updates', 'Software packages', and 'Tunnels'. The main content area is titled 'Devices' and includes a sub-header 'All devices' and a red 'Update software' button. A search bar and a 'Bulk Actions' dropdown are visible. Below these are several filter buttons: 'Device type', 'Serial number', 'Name', and '+ More'. A table of devices is shown with columns for 'Device type', 'Fleet', 'Serial number', 'Name', 'Description', 'Country code', and 'Phone number'. The table contains five rows of device data. At the bottom, there is a pagination control showing 'Showing 1-5 of 5' and page numbers '25', '50', and '100'.

<input type="checkbox"/>	Device type	Fleet	Serial number	Name	Description	Country code	Phone number

The screenshot displays the 'Device Management' interface. At the top, there's a search bar and a user profile icon. Below the navigation bar, the 'Devices' section is active, showing 'All devices' and an 'Update software' button. A search bar and filter options (Bulk Actions, Device type, Serial number, Name, More) are visible. The main content area contains a table of devices with columns for Device type, Fleet, Serial number, Name, Description, Country code, and Phone number. The table lists five devices, including 'EHS-CC' (Charmec) and several 'TC65' (Spraymec) units. At the bottom, there's a pagination control showing 'Showing 1-5 of 5' and page numbers 25, 50, 100.

Device type	Fleet	Serial number	Name	Description	Country code	Phone number
EHS-CC	Charmec	76543000-X	Carnival	Milling machine	UK	+358501238888
TC65	Spraymec	11948-555122	Forklift	Test machine A	SE	+358403912881
TC65	Spraymec	33424-559323	Hammer	Test machine B	FI	+358403913884
