

# Statistics - Aalto Bachelor's Programme in Science and Technology 2023

| Study option               | Applications | Target intake | Accepted* |
|----------------------------|--------------|---------------|-----------|
| Chemical Engineering       | 748          | 35            | 27        |
| Computational Engineering  | 1274         | 40            | 33        |
| Data Science               | 1697         | 30            | 28        |
| Digital Systems and Design | 950          | 45            | 37        |
| Quantum Technology         | 712          | 35            | 30        |

**\*Please note!**

Only applicants who met the minimum requirements set by the study options have been considered in the admission decision.

## Lowest accepted scores 2023:

| Study option               | Admission Group I | Admission Group II |
|----------------------------|-------------------|--------------------|
| Chemical Engineering       | 60                | 1390               |
| Computational Engineering  | 71.1              | 1440               |
| Data Science               | 88.6              | 1520               |
| Digital Systems and Design | 71.4              | 1390               |
| Quantum Technology         | 88.5              | 1410               |

# Statistics - Aalto Bachelor's Programme in Science and Technology 2022

| Study option               | Applications | Target intake | Accepted* |
|----------------------------|--------------|---------------|-----------|
| Chemical Engineering       | 593          | 35            | 51        |
| Computational Engineering  | 986          | 40            | 32        |
| Data Science               | 1218         | 30            | 30        |
| Digital Systems and Design | 785          | 35            | 34        |
| Quantum Technology         | 608          | 35            | 35        |

## \*Please note!

Only applicants who met the minimum requirements set by the study options have been considered in the admission decision.

## Lowest accepted scores 2022:

| Study option               | Admission Group I | Admission Group II |
|----------------------------|-------------------|--------------------|
| Chemical Engineering       | 92.9              | 1250               |
| Computational Engineering  | 87.4              | 1410               |
| Data Science               | 99.5              | 1490               |
| Digital Systems and Design | 72.7              | 1420               |
| Quantum Technology         | 94.1              | 1380               |

# Statistics - Aalto Bachelor's Programme in Science and Technology 2021

| Study option               | Applications | Target intake | Accepted* |
|----------------------------|--------------|---------------|-----------|
| Chemical Engineering       | 293          | 35            | 18        |
| Computational Engineering  | 467          | 40            | 22        |
| Data Science               | 580          | 30            | 37        |
| Digital Systems and Design | 387          | 35            | 32        |
| Quantum Technology         | 325          | 35            | 35        |

**\*Please note!**

Only applicants who met the minimum requirements set by the study options have been considered in the admission decision.

## Lowest accepted scores 2021:

| Study option               | Admission Group I | Admission Group II |
|----------------------------|-------------------|--------------------|
| Chemical Engineering       | 71                | 1210               |
| Computational Engineering  | 54.8              | 1240               |
| Data Science               | 88.7              | 1430               |
| Digital Systems and Design | 60.1              | 1230               |
| Quantum Technology         | 87.4              | 1200               |
