Formalities when arriving in Finland (Non-EU citizen)

BEFORE ARRIVAL

1. Apply for a residence permit (Apply already from your home country)
   - You may start the application process on-line on EnterFinland system (see more information on links below) but you will also need to personally visit the closest Embassy/consulate of Finland for identification.
   - To start the process, you will need a Hosting agreement from your employer. Your departmental HR services will send you this document.
   - Usually, academics apply for researcher’s permit. If your title in Aalto would be professor, post doc researcher or doctoral researcher this application is for you: https://migri.fi/en/researcher
   - If you are hired to non-academic position, you can find an Application finder which helps you determine your permit type: https://migri.fi/en/first-residence-permit
   - The application form asks for Aalto University information. Please find it below:
     Aalto University Business ID: 2228357-4
     Aalto University visiting address: Otakaari 24, 02150 Espoo, Finland
   - Please note, Aalto University does not use electronic Migri Enter Finland neither Fast track service as an employer.
   - With the residence permit application, you will also be granted a Finnish personal identity code. Finnish personal identity code is used to identify Finnish citizens and people who reside in Finland permanently or for a longer period of time. The code consists of eleven characters, starting with your birthday (DDMMYY). You will find it printed on the decision letter and your residence permit card. Your departmental HR services will need this code also to Aalto personnel database. You will also need this ID code when handling any formalities in Finland.
   - If you are moving with your spouse/family, it is very important that you all apply the permits simultaneously. You will all need to fill in separate applications, however in your own application (as primary applicant) you should inform that your spouse or family members are applying for a permit as well. This would grant that your family members get their residence permits at the same time with you. More information here: https://migri.fi/en/moving-to-finland-to-be-with-a-family-member

2. Get legalized documents (Apostille)
   - If you move with your spouse and/or children please remember to get legalized, so called APOSTILLE documents already before arrival. The documents you will need are marriage certificate and birth certificates. Please read more: https://dvv.fi/en/instructions-for-legalisation
