

Master's programmes' portfolio renewal

Jouni Paltakari

8.3.2023

Update on developments

Since the previous 'Meet the Dean' event

- Internal workshops with academic staff, LES & student reps:
 - 16.12.2022: Identifying programme-level intended learning outcomes & high-level specialisation options for each programme
 - 1.3.2023: Starting to map continuation paths from BSc and Master's level admission criteria to new Master's programmes

Recent & upcoming decisions

Decisions by KTAK 7/2022 (in November):

- Programme (and not major) = application target
- School-level programme structure = creditload of programme studies, thesis & elective studies

Decision proposals to KTAK 2/2023 (in April):

- Number and names of new Master's programmes
- Programme-level intended learning outcomes

➡ Programme proposal by Dean to President in late spring

Project schedule: active spring ahead

Currently discussing:

- Admission criteria & Academic evaluation criteria for 2024
- Presemo from workshop of 1.3. remains open for input

presemo.aalto.fi/chemportfolio1march

Work and discussions will also begin on:

- Student intake numbers
- Courses for new programmes
- Marketing of new programmes
