Recommendations for a cross-school course 2022-2024

On this page you can find 3 credit courses that are suitable for the cross-school course. In addition, it's possible to combine a 1 credit course with a 2 credit course as the cross-school course. It's also possible to take a larger course or course combinations (4-5 credits), although it's not highly recommended.

You don't need to apply a study right on these courses separately, but you can just normally register for the course in Sisu.

I period

• TU-C2080 Entrepreneurship Essentials (1 cr)

• ELEC-D4110 Radio Science for Space and Environmental Applications (2 cr)

• ELEC-C9610 Basics in Electronics (3 cr)

• NBE-C3001 Brain ABC (4 cr)

• PHYS-C9381 Energy Literacy: Core Questions and Answers on Energy (3 cr)

• ELEC-A8001 Introduction to Electrical Energy Systems (3 cr)

II period

• TU-C3050 Business Game (3 cr)

• CHEM-A1620 Perspectives on Environmental Issues (3 cr)

III periodi

• ELEC-A4930 Astronomical View of the World (3 cr)
