

Students in the School of Chemical Engineering, the School of Electrical Engineering, the School of Engineering, and the School of Science applied for exchange for AY 2024-25 to following destinations

- Application rounds November 2023 (destinations in Japan) and January 2024 (all other destinations)

Notes about the statistics:

- The lowest academic index selected does not tell whether there were places left over in the destination
- The lowest academic index selected does not tell how high the index was for the more popular semester if places are divided between the semesters
- If there is a line on the lowest index selected, no students were selected (either no applicants or no available places)
- if a destination is missing from the list, it means the destination was not open for applications or there were no applications to the destination during November 2023 or January 2024 application rounds.

Total applications	430	
Selected to 1st choice destination	273	63 %
Selected to 2nd choice destination	75	17 %
Selected to 3rd choice destination	25	6 %
Wild card	14	5 %
Selected total:	387	90 %
